YOSEMITE CHAPTER OF THE INTERNATIONAL CODE COUNCIL Presents

Creating Sustainability Programs

Instructors Bio

Hope Medina, CBO, CSP

Hope Medina has been part of the "Green Team" for over a decade, but is also an ICC Certified Permit Technician, Combination Inspector and Plans Examiner. She excels in complex plan reviews, having worked at the Town of Castle Rock, and the cities of Centennial and Castle Pine North in Colorado. However, she is typically recognized as a National Instructor for energy and sustainability codes, having often been asked to be a keynote speaker for National or International events. Hope has served as the Train the Trainer for the DOE, as well as a Safety Assessment Program with the State of California, and for National Green Building Standards in various task groups or committees. Hope was awarded the Colorado Chapter ICC Presidents Award in 2012, and the Exceptional Commitment award in 2019, as well as the Green Partners of Excellence award through NGBS in 2016 and 2017. Hope is a Senior Plans Examiner and Inspector, but is an SCA leader in Energy and Sustainability requirements

Course Description

Thinking of implementing a sustainability program in your jurisdiction? Maybe your jurisdiction even has their own Sustainability Coordinator. Does that Coordinator talk to the Building Department before writing policy that will need to be enforced? Maybe you already have a sustainability program, but it exists by paper alone. In this course, we'll explore various sustainability approaches and options, including the crucial topic of complying with construction waste diversion as required by the CA Green Building Code. Let's work through the different program approaches and options to make them work with those who should be sitting at the table for your goals to be successful.
