YOSEMITE CHAPTER
OF THE INTERNATIONAL CODE COUNCIL Presents
Overview of the 2025 CRC Residential Structural Framing Requirements

Instructor Bio

Charles Nganga, SE (M.S.)

Charles Nganga is a Structural Engineer with BPR Consulting group with over a decade of experience in building code compliance consultancy. Charles holds a master's degree in Structural Engineering and is also a certified ICC residential plans examiner.

Charles has also provided code compliance training over the last 7 years to various ICC Chapters, Cities and Organizations including the ICC Napa/Solano Chapter (2017, 2020), ICC San Joaquin Chapter (2017), ICC Sacramento Valley (2017), ICC Redwood Empire Chapter (2017), ICC Shasta Cascade Chapter (2017 and 2025), ICC Yosemite Chapter (2016), LA County under SK-Ghosh and Associates (2024) and City of Sacramento (2023).

Course Description

Join us for an in-depth, in-person training on the 2025 California Residential Code (CRC) Structural Framing Requirements. This one-day course provides building professionals, inspectors, engineers, and designers with a comprehensive overview of key structural provisions in the 2025 CRC. The morning session focuses on roof, wall, and foundation framing requirements, while the afternoon session explores critical wall bracing provisions to ensure structural stability and code compliance. Participants will gain practical knowledge to apply the latest IRC standards confidently in residential code compliance review.

Who should take this course? Individuals who conduct building plan reviews | Building Inspectors | Professionals who design, assemble or submit new residential or res. improvement Plans
