

YOSEMITE CHAPTER OF THE INTERNATIONAL CODE COUNCIL Presents Solar Permitting Plan Review

Instructor Bio

Pete Jackson is the chief electrical inspector for the city of Bakersfield, California. Following college, he served a four-year apprenticeship as an inside wireman through the Kern County JATC, attaining the status of journeyman wireman in 1984. Pete was co-owner of an electrical contracting firm for ten years, prior to joining the Bakersfield Building Department in 2005. Pete holds five electrical inspector certifications through the International Association of Electrical Inspectors (IAEI) and the International Code Council. He instructed apprentice and journeyman electricians through the Kern County JATC for seven years. Pete holds memberships in IAEI, NFPA, ICC, IBEW and serves as an AHJ representative on over twenty Standards Technical Panels for Underwriters Laboratories. He represents the IAEI as a principle member of NEC Code-Making Panel 8.

Course Description

Solar Permitting Plan review is an interactive course designed to provide a practical process to consistently review plans. A code official who is a national expert in solar plan review facilitates as participants learn how to evaluate a plan for compliance, with an emphasis on identifying the errors most frequently encountered in the plan review and in the field inspections. Each participant is given a solar plan for learning. After this training, you will be able to evaluate a complete solar permit package to ensure it is compliant with building, fire and electrical codes relevant to your jurisdiction, if you are given a site plan, electrical diagram, manufacturers' specification sheets and installation instructions. **Who should take this course?** Individuals who conduct building plan reviews | Building and Electrical Inspectors | Professionals who design, assemble or submit solar plans
