

YOSEMITE CHAPTER OF THE INTERNATIONAL CODE COUNCIL Presents

2016 CBC-CFC Means of Egress

Instructor Bio

Kevin has extensive experience in the development of fire safety, building safety and hazardous materials regulations. Kevin has actively worked for over twenty five years in the development of fire code, building code and fire safety regulations at the local, state, national, and international levels. Kevin previously worked as a Senior Regional Manager with the International Code Council. And before that, he was Deputy Chief for the Kern County Fire Department where he worked for 30 years. He has developed and presented many seminars on a variety of technical subjects including means of egress, high-piled combustibles storage, hazardous materials, and plan review and inspection practices.

Course Description

This course discusses the design and inspection of components of means of egress in commercial buildings. The course covers the requirements in the 2016 California Building Code and California Fire Code.

This course covers determining occupant load, means of egress capacity, number of exits, the need for fire-resistance-rated construction, exit and exit access doors and door hardware, separation of exits and exit access doors, exit access travel distance, common path of egress, when can a person egress through adjoining spaces, exit signs, egress illumination, stairways and horizontal exits. **This course is excellent for designers, architects, plan reviews, building and fire code inspectors.**
